CAREER OBJECTIVE

As a Full Stack Developer, I will use my excellent software development knowledge, agile developer experience, and excellent communication abilities to develop new awesome new applications. In addition, I will participate in design decisions, collaborate closely with other engineers, architects, cloud engineers, support teams, and other stakeholders. Also, I would be willing to learn any tech stack. In addition, I will keep innovating new ideas to evolve the company's applications and processes.

HIGHLIGHTS OF QUALIFICATIONS

- Diploma of Software Engineering Technician (Fast-Track) at Centennial College
- Bachelor's Degree in Computer Science from the University of Manitoba
- Extensive experience with design, development, and implementation of dynamic web applications while at school
- With collaboratively with others in an agile team environment on software development projects at school
- Extensive experience with testing web applications while at school
- Soft skills: Creativity, adaptability, team player, and work ethic

TECHNICAL SKILLS AND KNOWLEDGE

| | |
|--------------------------|---|
| Networking | Install and configure PCs to participate in a network environment Configure network operation system for small groups |
| Programming | AngularJS, React, NodeJS, JavaScript, HTML5, CSS3, Mongo, PLSQL, MYSQL, C#, Java, Jest, Mocha, Chai, and Express |
| Operating Systems | Windows, Apple Macintosh |
| Applications | Microsoft Office, Visual Studio, Visual Studio Code, Eclipse, GitHub, Mongo Atlas, Heroku |
| Other | Extensive knowledge of designing and analyzing algorithms, extensive knowledge of installing and configuring back-end servers and services, extensive knowledge of configuring front-end applications to communicate with back-end applications, and extensive knowledge of testing software applications |

EDUCATION

| | |
|--|---|
| Software Engineering Technician (Fast-Track) | <p>Centennial College 4.147/4.5 Degree GPA Toronto, Ontario, Canada (2021-2022)</p> <p>Relevant Courses Include: Advanced Database Concepts; Java Programming; Web Application Development; Object-Oriented Software Engineering; Programming 3; Software Development Project 1; Software Testing & Quality; IT Project Management</p> <p>Relevant Projects Include: Software design for Agile teams, agile web development using Mongo, Express, AngularJS, and NodeJS, Database configuration, Application development using Java, Application testing</p> <p>Key Achievement: In my web development course, we had a group project. Out of five group members, three members were not proficient with the technology that we had to use to develop our web application. I took leadership of the team. I called a meeting with the group members to discuss and solve this problem. At the end of the meeting, we decided to organize a tutorial session with the three members each week. The tutorials turned out to be effective. As a result, we not only completed the project on time, but we also received an A+ grade.</p> |
| Bachelor of Science Degree (Computer Science) | <p>University of Manitoba Winnipeg, Manitoba, Canada (2011-2020)</p> <p>Relevant Courses Include: Introduction Computer Science; Object Orientation; Human-Computer Interaction; Software Engineering; Computer and Network Security; Design & Analysis-Algorithms; DB tuning & Distributed DBS</p> <p>Relevant Projects Include: Website design, Software design, Application development using, Database configuration, Application development using Java, Application testing</p> |

RELATED WORK PROJECT

| | |
|--------------------------------|---|
| Lead Software Developer | <p>Tournament Bracket Website (2021-2021)</p> <ul style="list-style-type: none"> Implemented a tournament bracket application with MongoDB, Express, JavaScript, Typescript, GitHub, and Node in an agile team environment. |
| Software Developer | <p>Chat Application with MEAN Stack and Sockets io (2021-2021)</p> <ul style="list-style-type: none"> Implemented a chat application with Sockets, MongoDB, Express, Angular, GitHub, and Node. |
| Software Developer | <p>Backend API Server (2021-2021)</p> <ul style="list-style-type: none"> Implemented a backend API server. Incorporated caching, and testing for efficiency and correctness respectively. |

Software Developer**Ecommerce Search Site**

(2021-2021)

Implemented a full stack Ecommerce search site with Mongo, Express, React, and Node.

Software Developer**HKN Corporation**

Lekki, Lagos, Nigeria (2019-2020)

- Implemented a REST web service for the company's mobile application using Mongo, Express, and NodeJS
